Professional Summary

Lead Software Engineer with 9+ years of experience building and operating Java and Spring Boot backend services, cloud-native microservices, and distributed systems. Work spans AWS, Kafka, Kubernetes, PostgreSQL, Redis, MongoDB, continuous delivery, production support, and mentoring. Has also integrated AI workflows into backend products. Based in Chennai, India, and authorized to work in India.

Core Technical Skills

Backend and Languages: Java (Java 8, 17, 21), Spring Boot 3.x, Spring Data JPA, Spring Security, REST APIs, Microservices Architecture, SQL

Cloud and Orchestration: AWS (EKS, ECS, S3, RDS, Lambda), Docker, Kubernetes, Helm, Istio Service Mesh, Jenkins, GitHub Actions

Data and Messaging: Apache Kafka, Redis, PostgreSQL, MongoDB, Oracle Database

Methodologies and Tools: Git, Agile/Scrum (PSM I, PSPO I), Prometheus, Grafana, Clean Architecture

Professional Experience

NCS Group

Lead Software Engineer | Dec 2021 - Present

Project: Vehicle-Related Licensing System 2.0 (Land Transport Authority)

- Architected and supported Java 21 and Spring Boot 3 microservices for a government licensing modernization on AWS GovCloud, using EKS, Istio, Kafka, KEDA, Redis, and ArgoCD.
- Led an Angular 13 to 18 migration that reduced redundant API calls by 40%.
- Worked with PostgreSQL, Redis, Kafka, Docker, Kubernetes, Jenkins, GitHub Actions, Prometheus, and Grafana across production services.
- Mentored developers on cloud-native engineering practices and contributed to technical design discussions.

BlackStraw.AI

Senior Software Engineer | May 2021 - Nov 2021

Project: Promo Power Solution (AI Retail Forecasting)

- Built Java and Spring Boot services for retail trade promotion workflows and connected retail data feeds to AI/ML inference endpoints.
- Replaced batch polling with Kafka streams, reducing reporting latency from more than 15 minutes to near real time.
- Worked with AWS Lambda, PostgreSQL, REST APIs, Jenkins, and SonarQube.

AllTech Systems (supporting Housing & Development Board)

Software Engineer | Aug 2019 - Dec 2020

Project: HDB Resale Portal

- Built resale portal features for eligibility checks, fee computation, and multi-level approval workflows.
- Worked with Java, JSF, PrimeFaces, Oracle Database, WebLogic, SOAP web services, and SVN.

Wolters Kluwer

Software Engineer | Jul 2018 - Jul 2019

Project: Legal View Bill Analyzer

- Built a Spring Boot service that combined AI model predictions with Drools rule evaluation for legal billing compliance, with production latency below 500 ms.
- Worked with MongoDB, REST APIs, Jenkins, Git, and SonarQube.

SysArc Infomatix

Associate Software Engineer | May 2016 - Jul 2018

Project: Lending Automation Processing System

- Developed Java features for lending workflows covering risk analysis, document handling, and loan processing.

Education

Anna University, Chennai
Bachelor of Engineering | 2012 - 2016

Certifications

Professional Scrum Master I (PSM I)
Professional Scrum Product Owner I (PSPO I)
ICT Assessment Certification, NUS-ISS
